

Digital workflows for the utility industry

## Next generation cloud powered multi utility mapping & managing platform.

Geolantis360 is a field asset data collection platform that simplifies the process of multi utility as built drawings, inspections & maintenance of infrastructure assets. It converts paper-based processes into digital workflows & the modular app based software will simplify delivery of GIS, CAD & Asset Management to mobile field crews.

**Damage Prevention**  
For now and the future

### SETUP

Fully customisable forms and checklists to suit your individual requirements

### COLLECT

Collect geospatial and asset type data using Geolantis 360 powerful & user-friendly Android and iOS interface

### INSPECT

Inspect assets using smart forms with inspection rating matrix to determine life cycle or maintenance requirements

### ANALYSE

Data acquired on site is instantly available to users and network managers. Leverage the full potential of the cloud.

### SHARE

Share asset data to all your workers devices & export to your onsite GIS, CAD and other mapping systems within your company

**GET THE APP TO LOCATE, MAP & SHARE ASSET INFORMATION**

COLLECT DATA ANYWHERE, ANYTIME, INSTANTLY!

## Mobile Data Collection

### Collect & Map to prevent damage

- Mobile GIS & CAD viewer apps
- Collect utility asset locations
- Connects bluetooth EM Locators
- High accuracy GNSS data acquisition
- Fully offline capable
- Fully synchronized with cloud platform
- Digital Innovation for the utility industry

OPTIMISE YOUR WORKFLOW

## Inspection & Maintenance Work

- Technical Documentation
- Integrate with workflows
- Location tracking
- Powerful analytics and reporting
- Tailored smart forms & checklists with inspection rating matrix
- Health & Safety inspection suite

*Geolantis.360 is the only platform that aligns with our philosophy of data management, process planning and operational management - a case of GIS meets ERP. It gives us the ability to manage more with less.*

- Bruce Baker, Director at Utility Mapping

WITHOUT GEOLANTIS360	VS	WITH GEOLANTIS360
 <p>Inneficient paper-based processes</p>		 <p>Digital cloud-based workflow</p>
 <p>Assign tasks manually</p>		 <p>Assign tasks and manage teams effortlessly</p>
 <p>Unstandardised forms and documents</p>		 <p>Adopt an efficient technical documentation</p>
