

Accomplish even more with Esri's ArcGIS

Complimenting **Esri's ArcGIS**, Geocortex technology provides an alternative but complementary path to help you configure, extend, and preserve what you've already built. **Geocortex** provides a true **no-code** approach to create purposeful and powerful web mapping and mobile applications with an emphasis on usability and beautiful design, Geocortex products and solutions help maximise user adoption and success.

Our **Geocortex Team** has been exclusively reselling Geocortex in the UK and Ireland since 2012. The team have **extensive experience** and knowledge in providing training, consultancy and support to **national mapping and land management agencies, utility companies, transportation organisations, government and defence departments**.

We have over **50 years' experience** working with our global customer base to help them achieve their business goals. As **Esri** and **VertiGIS** partners we can help you to **drive efficiency** and **provide confidence** in the data you use.

As a **global leader** in providing software, solutions and business applications for managing location and **geospatial data**, we are committed to working with our customers to **unlock the value** of your data and create a **smarter world**.

What we can offer you:

- Global support and expertise
- Experienced consultancy and delivery teams
- Accredited training programme
- Free and educational webinar series

Why Geocortex?

Save time

Build and configure purposeful, powerful mapping and GIS applications without writing a line of code.

Release ready

As Esri technology evolves, we grow with it so you don't have to worry about starting from scratch.

Rich capabilities

Beautiful viewers, streamlined reports, and high-quality printing are just a few of the tools we add to your kit.

"1Spatial has a 10-year track record of delivering the highest quality implementations to our mutual customers. Many of these implementations required technical competency on a par with VertiGIS' own professional services team."

Vince Wruck, Partner Manager, VertiGIS
