

Traffic Management Plan Automation (TMPA)

Automated - Fast - Consistent

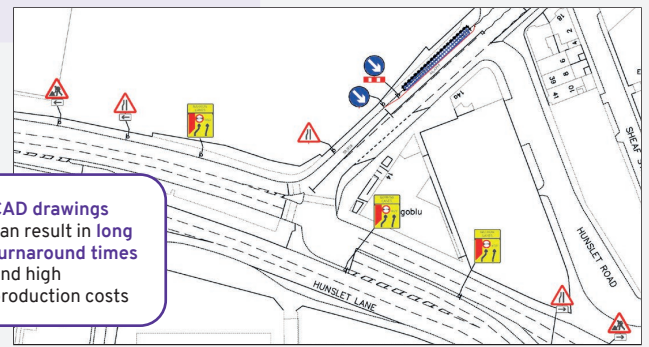

Significantly shorten the time, effort, and cost to produce Traffic Management Plans

Produce signing, lighting, and guarding layouts and inventory lists using industry rules and standards – automatically, quickly, at **low cost** and for **minimal effort**.

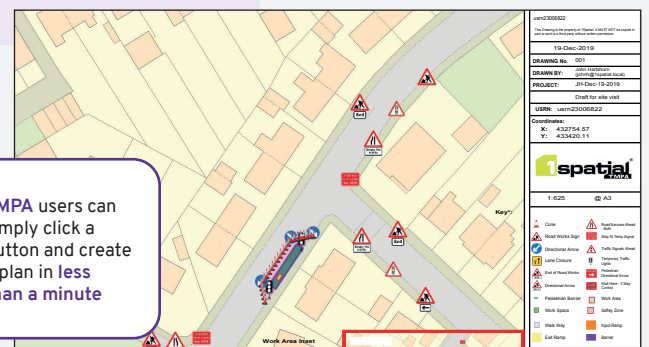

Our **Traffic Management Plan Automation (TMPA)** Software as a Service (SaaS) solution automates the production of Traffic Management Plans and layout inventory lists, ensuring that plans implement the "Red Book's" rules. These relate to the signing, lighting, and guarding that **health and safety requirements** impose regarding the welfare of workers and the public.

Our **solution** allows you to significantly shorten the time, effort, and cost it takes to produce Traffic Management Plans that are standard, **consistent**, and implement the industry rules and standards.

Without Automation...

With Automation...

Enabling our customers to...

- **Automate the production of Traffic Management Plans:** Create consistent plans quickly and save time and money
- **Automate the production of Equipment Lists:** Better inventory management for traffic management layouts
- **Ensure consistent application of the rules:** Applies the "Red book" - Safety at Street Works and Road Works – A Code of Practice
